OBJECTIVE

A dedicated and motivated Full Stack Developer and HNDIT undergraduate at SLIATE with a strong passion for software engineering and modern web technologies. Skilled in designing and developing responsive web applications, robust backend systems, RESTful APIs, mobile applications, and interactive desktop applications. Proficient in both frontend and backend development using modern frameworks and technologies. Seeking an opportunity to apply technical expertise in a professional environment while continuously learning, enhancing my skills, and growing as a Full Stack Software Developer.

EDUCATION

Higher National Diploma in Information Technology (HNDIT) — Currently Pursuing

SLIATE (Sri Lanka Institute of Advanced Technological Education)

G.C.E. Advanced Level – Technology Stream

Welimada Central College | Pass

G.C.E. Ordinary Level

Welimada Vijaya College | Pass

CERTIFICATIONS

- National Certificate Course in Information & Communication Technology (ICT) — ICTA

TECHNICAL SKILLS

Programming Languages: Python, Java, Kotlin, JavaScript, HTML5, CSS

Frameworks & Libraries: Flask, React, Next.js, Node.js

Databases: MySQL, SQLite, SQL, MongoDB

Tools & Platforms: NetBeans, Android Studio, Git, GitHub, VS Code, WordPress

Core Concepts: Object-Oriented Programming (OOP), Database Design, Software Development Life Cycle (SDLC), Backend Development, Mobile App Development, Desktop Application Development

PROJECTS

Quantum Careers — Full Stack Project

Technologies: Next.js, Node.js, MongoDB

- Developed a futuristic recruitment platform designed for high-end technology job opportunities.
- Implemented dynamic job posting, application management, and interactive statistics dashboards.
- Built a modern, responsive user interface with efficient backend integration and database management.

Laptop Navigator AI — AI-Based Project

Technologies: Python, React.js, Machine Learning

- Developed an AI-powered laptop recommendation system to suggest suitable laptop specifications based on professional career requirements.
- Implemented machine learning-based market price prediction to estimate laptop values.
- Designed an interactive dashboard for displaying recommendations, specifications, and pricing insights.

Green Villa — Full Stack Web Application

Technologies: React.js, Node.js, MongoDB

- Created an eco-luxury resort web application featuring a modern and responsive user interface.
- Developed a room booking system, travel guide, and immersive visual experience focused on sustainable tourism.
- Integrated frontend and backend functionality to enhance user experience and application performance.

Adventure Travel App — Frontend Project

Technologies: React.js

- Developed a responsive and user-friendly travel application interface using React.js.
- Designed interactive travel pages with modern UI components to enhance user experience.
- Implemented responsive layouts optimized for different screen sizes and devices.

Inventory Management System — Desktop Application

Technologies: Java, MySQL, NetBeans

- Developed a Java-based inventory management system to handle product records, stock tracking, and supplier management.
- Implemented database integration for efficient data storage and retrieval.
- Designed a user-friendly dashboard to monitor inventory operations and reduce manual record management.

Smart Inventory Management System AI — AI-Powered System

Technologies: Java, MySQL, Python

- Built an intelligent inventory and POS management system with AI-driven analytics features.
- Implemented real-time stock monitoring, low-stock alerts, and automated inventory insights.
- Developed sales history reporting features to support better business decision-making.

RELEVANT COURSEWORK

Software Engineering · IT Project Management · Software Quality Assurance · Enterprise Architecture · Mobile Application Development · Programming Individual Project · Professional World

CAREER GOALS

- Successfully complete the HNDIT programme
- Grow into a professional Software Engineer
- Build and deliver real-world software projects
- Contribute actively to open-source projects

LANGUAGES

Sinhala — Native English — Intermediate

PERSONAL DETAILS

Address: Weheragodahena, Pahala Kotawera, Welimada
